

EARNING MONEY

Activity Instructions:

Talk to your kids about the "3 jar system." We encourage you to focus on the "Save" jar this summer. Our Coupon system will motivate kids to earn extra money by doing additional tasks around the home to support you and your family.

1. Start by making each coupon an amount of money that is age appropriate and fits with your family budget eg: a quarter for Prek.
2. Encourage your young children to save for a particular item by partaking in some of these additional "family need help" items around the home.
